Rashid Reda (Front-end Developer)

Phone: 01003184702 — Email: redarashid824@gmail.com — LinkedIn: linkedin.com/in/rashidreda
Address: Egypt

Profile Summary

Passionate Front-End Developer with expertise in React.js, Next.js, and modern UI frameworks. Experienced in building responsive and user-friendly applications, implementing state management, and integrating APIs. Strong problem-solving skills, attention to detail, and commitment to delivering high-quality solutions.

Work Experience

Front-End Developer   *Nativecode*
Jan 2022 – Present

- Developed a modern and responsive portfolio website using **React.js** and **Material-UI**.
- Showcased projects, skills, and experience with an interactive and user-friendly interface.
- Implemented dynamic theming and smooth animations for an enhanced user experience.
- Optimized for performance and SEO to improve visibility and loading speed.

Task Management App   *Nativecode*
Mar 2023 – Aug 2023

- Developed a task management web application using **React.js**, **Vite**, and **Tailwind CSS**.
- Integrated state management for smooth user interactions and real-time updates.
- Designed a fully responsive interface for optimal usability across devices.

Smart-Shopper Integration   *Nativecode*
Sep 2023 – Dec 2023

- Integrated hundreds of clinics across Iraq with the **Unimedica Laboratories Management System**.
- Managed patient visits, prescriptions, tests, medications, and medical history.
- Improved clinic operations through seamless system integration.

Internships & Training

Internship Trainee   *National Air Navigation Services Company – Egypt*
Jun 2022 – Aug 2022

- Participated in a technical internship focused on aviation systems and IT operations.
- Attended workshops on air traffic management technologies and communication systems.

Trainee   *Information Technology Institute (ITI) – Egypt*
Jul 2025 – Present

- Received intensive training in modern front-end development using **React.js** and **Next.js**.
- Built multiple responsive and accessible web applications using component-based architecture.
- Applied advanced concepts such as **routing**, **state management**, and **API integration**.
- Used **Git** and **GitHub** for version control and collaboration.

Education

Bachelor of Computer Science, Faculty of Computers and Information, Zagazig University   2022 – 2026
Zagazig, Egypt

Skills

Front-End: TypeScript, JavaScript, HTML5, CSS3, React.js, Next.js, Bootstrap, Redux, Data Structures, Redux Toolkit
UI Libraries: Ant Design, Tailwind, Material UI
DevOps: Git, GitHub, Docker

Projects

E-commerce Website
React.js, Material UI, Redux Toolkit, Firebase
Developed a fully functional e-commerce platform with product listings, shopping cart, and checkout process. Integrated Firebase for authentication and database management.
GitHub Repo — Live Demo

Dashboard Application
React.js, Material UI, Chart.js
Created an admin dashboard to visualize data using interactive charts and tables. Implemented responsive UI and dynamic data fetching.
GitHub Repo — Live Demo

Weather App
React.js, OpenWeather API
Built a weather forecast application that displays real-time weather data based on user location or search input.
GitHub Repo — Live Demo

React Blog
React.js, Firebase
Developed a blogging platform with user authentication, post creation, and comment functionality.
GitHub Repo — Live Demo

Trend-Wear
React.js, Tailwind CSS
Fashion e-commerce website with product filtering, category browsing, and responsive UI design.
GitHub Repo — Live Demo

Rashid-Dash
React.js, Material UI, Recharts
Custom dashboard solution with dynamic chart updates and data visualization components.
